Day of reckoning at hand, says GMA

Pushes Charter change in Freedom Day speech

By Gerson B. Sison
[1] It's a guess, and [2] it's a question.

REMINISCING THE NATION that nation's history "that was written to create an independent nation where justice underpins progress," President Macapagal-Arroyo used the day of reckoning on Charter change was just around the corner.

President Gloria Macapagal-Arroyo (center) during the Freedom Day event, holding a torch. Other officials are seen in the background.

SC insists Leo execution was correct

By Arnold N. Reyes and Henry Gomez

THE SUPREMACY COURT (SC) has ruled that the execution of a convict was correct. The court said that the execution was carried out in accordance with the law and that the convict was guilty of the crime for which he was executed.

CBCP warns of subtle dictatorship

By M.D. Sison

A "subtle dictatorship" is being set up by the Communist Party of the Philippines (CPP) in the Philippines, according to a report by the International Commission on the Philippines (ICP).

The report says that the CPP is using its influence to control the government and to suppress the rights of the people. It also says that the CPP is using violence to achieve its goals.

The report also says that the CPP is using its influence to control the government and to suppress the rights of the people. It also says that the CPP is using violence to achieve its goals.

Respect political agitators—they prepare ground for change

By Peter Lloyd V. Sison

THE PHILIPPINE GOVERNMENT should respect the rights of political agitators, according to a report by the International Commission on the Philippines (ICP).

The report says that the government should respect the rights of political agitators. The report says that the government should respect the rights of political agitators.

Police clueless on latest blasts

Cops stumped by shadowy group

By Jingo A. Soler
and Pia Inez Ramos, Manila Bureau Staff

MANILA—A SHADOWY GROUP calling itself "Young Thugs in School" took dramatic revenge after the loss of the Manila police headquarters when police officers shot the explosives that struck the complex in the Quezon City blast. Several top police officers were seriously wounded.

The explosion, which hit the police headquarters, was the first in a series of attacks on police targets in the Philippines since the 1992-93 peace talks. The police are now on high alert, and the police chief, Gen. Romeo Prudente, said he was "not sure" if the group was still active.

The group, which is active in the Manila area, is believed to be a splinter group of the New People's Army (NPA). The group has been active in the Manila area since the 1992-93 peace talks. The group has been active in the Manila area since the 1992-93 peace talks.

Figure 1 consists of 12 panels, labeled (a) through (l), each showing a growth curve of *E. coli* O157:H7 in ground beef. The y-axis for all panels is 'log₁₀ CFU/g' ranging from 0 to 10. The x-axis for all panels is 'Time (h)' ranging from 0 to 24. The growth curves show that higher NaCl concentrations lead to lower final bacterial counts and faster growth inhibition.

- (a) Control: Shows a typical growth curve starting at ~10^{1.5} CFU/g, peaking at ~10^{8.5} CFU/g at 12 hours, and then declining to ~10^{7.5} CFU/g at 24 hours.
- (b) 100% NaCl: Shows a rapid decline in bacterial count, reaching ~10^{2.5} CFU/g by 12 hours and remaining stable until 24 hours.
- (c) 50% NaCl: Shows a rapid decline in bacterial count, reaching ~10^{2.5} CFU/g by 12 hours and remaining stable until 24 hours.
- (d) 25% NaCl: Shows a rapid decline in bacterial count, reaching ~10^{2.5} CFU/g by 12 hours and remaining stable until 24 hours.
- (e) 12.5% NaCl: Shows a rapid decline in bacterial count, reaching ~10^{2.5} CFU/g by 12 hours and remaining stable until 24 hours.
- (f) 6.25% NaCl: Shows a rapid decline in bacterial count, reaching ~10^{2.5} CFU/g by 12 hours and remaining stable until 24 hours.
- (g) 3.125% NaCl: Shows a rapid decline in bacterial count, reaching ~10^{2.5} CFU/g by 12 hours and remaining stable until 24 hours.
- (h) 1.5625% NaCl: Shows a rapid decline in bacterial count, reaching ~10^{2.5} CFU/g by 12 hours and remaining stable until 24 hours.
- (i) 0.78125% NaCl: Shows a rapid decline in bacterial count, reaching ~10^{2.5} CFU/g by 12 hours and remaining stable until 24 hours.
- (j) 0.390625% NaCl: Shows a rapid decline in bacterial count, reaching ~10^{2.5} CFU/g by 12 hours and remaining stable until 24 hours.
- (k) 0.1953125% NaCl: Shows a rapid decline in bacterial count, reaching ~10^{2.5} CFU/g by 12 hours and remaining stable until 24 hours.
- (l) 0.09765625% NaCl: Shows a rapid decline in bacterial count, reaching ~10^{2.5} CFU/g by 12 hours and remaining stable until 24 hours.

RP rates lowly '8' in S&P scale

Watchdog's rating reflects relatively weak banking industry

By Steve C. Remon

MANILA, June 11 (AP) — The World Bank on Tuesday said the Philippines' creditworthiness is "low" and its economic growth is "moderate," reflecting a relatively weak banking industry.

The World Bank's annual report on the Philippines, released Tuesday, said the country's creditworthiness is "low" and its economic growth is "moderate." The report also said that the Philippines' banking industry is "relatively weak" and that the country's economic growth is "moderate."

Philippine Economic Outlook

Figure 1 is a line graph showing the change in the number of individuals in the population of the common reed (*Phragmites australis*) over time (1990-2000) for different water levels (0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12, 13, 14, 15, 16, 17, 18, 19, 20, 21, 22, 23, 24, 25, 26, 27, 28, 29, 30, 31, 32, 33, 34, 35, 36, 37, 38, 39, 40, 41, 42, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 59, 60, 61, 62, 63, 64, 65, 66, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 80, 81, 82, 83, 84, 85, 86, 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100). The graph shows a general increase in the number of individuals over time, with a significant peak around 1995-1996. The water level is indicated by the x-axis, and the number of individuals is indicated by the y-axis.

Figure 1 illustrates the experimental setup. A subject is seated at a table, viewing a video screen. A camera is positioned above the screen. A target is placed on the table. A horizontal arrow indicates the movement of the hand from the starting position to the target. A vertical arrow indicates the movement of the hand from the starting position to the video screen. A horizontal arrow indicates the movement of the hand from the video screen to the target. A vertical arrow indicates the movement of the hand from the video screen to the target.

Figure 1 consists of two bar charts. The left chart shows the percentage of subjects with positive results for anti-HIV-1 IgG, and the right chart shows the percentage of subjects with positive results for anti-HIV-1 RNA. Both charts show a significant increase in positive results over time (0, 1, 2, 3, 4, 5, 6, 7, 8, 9, 10, 11, 12 months).

Sy raises P800M from sale of shares in Chinabank

By Stephen L. Young

Sy Corporation has raised P800 million from the sale of shares in Chinabank, a move that will significantly increase its stake in the financial institution. The company announced that it has sold an additional 10 million shares of Chinabank stock at P80 per share. This transaction is part of a larger strategy to strengthen its financial position and expand its operations in the banking sector.

Aggravated
 When you get up tomorrow or the day after, you will find a lot of things that you will not find today. You will find a lot of things that you will not find today. You will find a lot of things that you will not find today.

the United States, Japan and Hong Kong. While Hong Kong is viewed as being free from corruption, Japan and the United States are not. However, corruption is not always a bad thing. In some cases, it can be a necessary evil. For example, in the case of the United States, corruption is often used to get things done. In the case of Japan, corruption is often used to get things done. In the case of Hong Kong, corruption is often used to get things done.

Planning

During institutional preparation, the national team met to discuss curricula and research.

At the national level, post-war curriculum is a topic of intense concern with two aspects of particular importance: (a) the curriculum itself, and (b) the manner of its delivery. Both fall to be discussed separately.

(a) In the 1950s, much emphasis is placed on the training of students to do routine jobs. However, there is also a need to develop the intellectual and creative skills of students, and to provide them with the knowledge and skills to meet the needs of the economy.

Learning to say 'no'
 Government ministers, too, are asked to say 'no' to requests for more money. The Treasury has to say 'no' to requests for more money. The Treasury has to say 'no' to requests for more money.
